

Define the Kyocera Printer on the Macbook

- If you do NOT have a “heplwXX” workstation, save the ppd email attachment from Peggy in “/tmp/ell219kyocera.ppd”.
- Otherwise, if you have a “heplwXX” workstation (where “XX” is the ID number of your workstation), open a terminal window on your Macbook and retrieve your ppd file with the following commands:

```
cd /tmp  
scp -P2200 heplwXX.phys.uvic.ca:/usr/share/cups/model/ell219kyocera.ppd .
```

- Then...
